INSTANT DESK

INSTANT SUITE

Simple and elegant. Designed from the ground up, this elegant technology looks and feels like a piece of art.

Open space desk booking solutions are obsolete with out the Instant Desk Suite and the DeskPad.

Booking a space through any platform is only one part of the reservation process. Now, with the DeskPad, reserving, locating, securing, identifying and checking into a desk is easier than ever.

Instant Desk is designed to mount on any surface effortlessly, from solid oak to glass desktops without needing to apply any damages or permanent markings.

NFC

3.5" LCD Screen

Dual Touch

Status LED Lights 256 Colours

Noise reduction microphone

Internal Speakers

QR Code Integration

MEASURE OCCUPANCY RATIO IN REALTIME

When equipped with infared presence sensors, the Instant Desk Suite can measure and send real time data via SigFox or a LORA network.

This allows you to measure the real time occupancy ratio of desks, shared offices, coworking spaces and meeting rooms.

MAKE YOUR WORKSPACE DIGITAL

- Find a free desk at any floor, and book it within 2 clicks via the Instant Booking web portal, a GroomPad or Instant Mobile

- You can also scan QR codes assigned to a desk to book it in a few seconds.

- Book a desk or office whenever it's free due to the DeskPad touch screen.

CONFIRM BOOKINGS & MANAGE NO SHOWS

You can simply scan the on-desk QR code to confirm any booking. Desk status will switch from green to red on all 3D maps displayed on GroomPads and RoomPads as well as on Instant Mobile.

In the case of infared presence sensors, you can simply sit at any free desk and a booking is automatically acknowledged.

DeskPads are also equipped with a RFID reader, so you can simply scan your ID card and authenticate your booking immediately.

The Instant Desk Suite manages no-shows and automatically releases the desk if the booking is not confirmed.
